Hardware The SainSmart Bicam is a recorder based on the Allwinner R5, a mini computer processor built on a dual core Cortex-A15 @ 2.0 GHz and a Mali-450 MP2 GPU. The processor comes with 1GB RAM and 32GB internal memory. It supports USB OTG (On-The-Go) feature. The Bicam features 3 memory card slots, allowing the user to record his/her gameplay without worrying about running out of space. The recording resolution is up to 2160p @ 60fps, 1080p @ 120fps, 720p @ 240fps, 2160p @ 30fps and 1080p @ 60fps. The Bicam supports most popular codecs including H.264 and HEVC (H.265), MPEG-1/2, MPEG-4, WMV, AVI, 3GP, MP3, AAC, Ogg Vorbis and MP4. The built-in microphone can be used to record the sound effects and voice during gameplay. The external microphone can be connected via the 3.5mm audio jack. There are two pre-installed AAA batteries to keep the Bicam working for long time. Software The SainSmart Bicam comes with

SainSmart Recorder software. It is very easy to use, just connect the Bicam to the computer via USB cable, turn on the Bicam and click "Start" to record the gameplay in real time. Record completed recordings can be viewed and edited, then be transferred to a USB storage device to be played back on any other computer. The software supports most popular video formats including H.264 and MPEG-1/2, MPEG-4, AVI, MOV, WMV, 3GP, MP4, and MKV.
